Subject: 54 Sunset Farm Road - Test Pit for Drainage on Tuesday, November 21, 2017

Ladies and Gentlemen,

Please note that tomorrow, Tuesday November 21st, there will be some additional testing done at the rear of 54 Sunset Farm Road comprising of two (2) test pits in the area of the proposed drainage basin - Lenard Engineering Inc., the applicant's engineering firm, will be overseeing the tests. The Planning and Engineering Division's for the Town will also visit the site.

This testing is necessary to determine if there might be a different type of infiltration system that could be installed. We anticipate this work will involve a back hoe to access that area. It is possible some of the existing debris will need to be moved but no additional tree removal is planned.

If you have any questions please don't hesitate to contact me.

Best Regards,

Catherine Dorau
